

STUDENTS PROBE

Registration is now open for the Fall 2020 Virtual Probe Tour. Over 160 colleges will participate in two mini-fairs to be held entirely online, October 5-7, and November 2, 4-5. Each fair will begin with hosted panels on Monday, October 5 and Monday, November 2. These panels will cover topical information delivered by admissions experts on things like financial aid, the college admissions process, etc. Panels will be followed by nightly sessions where students can hear from different colleges and universities and will have the ability to ask questions to representatives. Students can register for panels and sessions in each 45-minute time block, on any night. Please note that each event requires a separate online registration. These events are free and are open to students and parents.
