NURSE'S CORNER

[Nutrition.gov](https://www.nutrition.gov) has resources that can help people of all ages make healthier food choices and live an active lifestyle

Make healthy choices as you grow

During the teenage years, you're beginning to make your own decisions – and that's pretty awesome! One of the ways you can make smart choices is in the foods you eat. We get it, life is busy between school and friends, but starting with small changes now will not only help keep your mind and body growing healthy, but it will also help set you up for success later on.

Eat a Variety of Foods

Make choices from all food groups—fruits, vegetables, grains, protein foods, and dairy and fortified soy alternatives—every day. Each group gives you different nutrients and you need all of them. Eating a variety of healthy foods can have many benefits, including more energy, stronger bones, and healthier skin.

Make Healthy Choices on the Go

Life is busy and you may not always be home when hunger strikes. If you have afterschool activities or work, stock your backpack with healthy snacks like apples, baby carrots, whole wheat crackers, or unsalted nuts. Check out [Healthy Snacking with MyPlate](#) for more ideas.

Grabbing a bite to eat with a friend? [Learn how to choose healthy menu options](#) if you're getting takeout or eating at a restaurant.

Keep Water Handy

Water is a healthy and refreshing drink choice. Keep a reusable water bottle in your bag and skip the sugary sodas, fruit drinks, coffee drinks, and energy and sports drinks.

For something different, try flavoring water with fruits or vegetables (like lemons, oranges, or cucumbers), and mint or other herbs.

Be Active

Squeeze in some physical activity between homework, going out, and other activities. Here are some ideas:

- Try morning stretches or yoga
 - Walk the dog
 - Ride your bike or skateboard with a friend
 - Do an online workout or dance video
 - Sign up for an active after-school program or rec center class
 - Put on your favorite podcast or playlist and go for a walk or run
 - Organize a pick-up soccer, basketball, or kickball game with friends

HABIT 3: PUT FIRST THINGS FIRST

Habit 3: Put First Things First is the exercise of independent will toward becoming principle-centered. Habit 3 is the practical fulfillment of Habits 1 and 2. Habit 1 says, "You are the creator. You are in charge." Habit 2 is the first mental creation, based on imagination, the ability to envision what you can become. Habit 3 is the second creation, the physical creation.

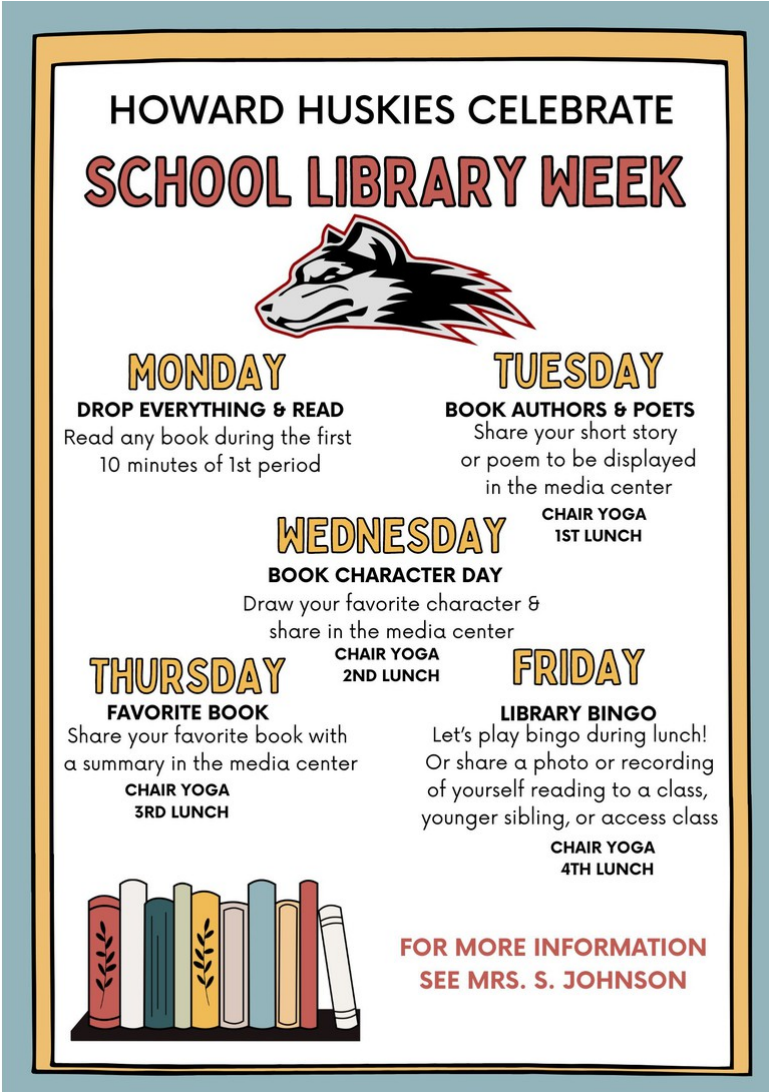

This habit is where Habits 1 and 2 come together. It happens day in and day out, moment-by-moment. It deals with many of the questions addressed around time management. But that's not all; habit 3 is about life management as well—your purpose, values, roles, and priorities. What are "first things?" First things are those things you find of most worth. If you put first things first, you

are organizing and managing time and events according to the personal priorities you established in Habit 2.

HABIT 6: Synergize

Value people's differences, particularly their strengths. Combine your thinking with their thinking to create third alternatives.

HABIT 5: Seek First to Understand, then to be Understood

Diagnose a problem before prescribing a solution. Listen with your ears, eyes, and heart. Present your thoughts clearly.

Have courage to stand up for your needs and wants. Be considerate of others' needs and wants. Seek mutual benefit.

HABIT 3: Put First Things First

Do your most important things first. Have discipline to stick to your goals. Say no to things that distract you from achieving your best.

HABIT 2: Begin with the End in Mind

Know what is most important to you. Think ahead. Set meaningful goals. Have a plan to accomplish them.

DIGITAL CITIZENSHIP

Be SMART When Using the Internet

Stay safe on the Internet by not sharing personal information or downloading files without permission.

Manage your digital footprint by not oversharing information, because once it is on the Internet you can't get it back.

Act responsibly by standing up to cyber bullies and reporting them to adults.

Respect other people's ideas, thoughts and personal beliefs.

Take regular breaks from technology and the Internet to spend time on other activities and interests.

For more information on Internet safety, go to <https://stavsafte.org/teens/>

A digital citizen is a person who develops the skills and knowledge to effectively use the internet and other **digital** technology, especially in order to participate responsibly in social and civic activities.

How can I create media balance in my life?

<https://youtu.be/USIHqNfwK4>

How can I keep my private information safe?

<https://youtu.be/RQqX5b5HWmY>

How can I build a digital footprint I'm proud of?

<https://youtu.be/pM7IPgMulHk>

Teach students to conduct data mines (on themselves).

Students should do this every 3-6 months. While many will Google their names, we need to teach them to dig deeper. Here are some general guidelines to follow:

- Log out of internet browsers before searching (staying logged in can affect the results).
- Search (using quotation marks) full legal names, nicknames and usernames.
- Search Google Images with names/usernames.
- Use multiple browsers, such as Chrome, Bing, Yahoo, Safari and Firefox.
- Look beyond the first page of the results. Go at least five pages deep until the name/username no longer appears. Take note of what kind of results appear (presentations/social media/images/etc.).

Stress the importance of digital maintenance.

This is the spelling list or cursive practice of the digital world. It's not glamorous to teach but essential for students to know:

- Remind students to backup Drive files, important emails, smartphone photos/apps/etc. at least once a month.
- Reiterate the importance of logging out of accounts, not simply closing the browser window.

LAPTOP INFORMATION AND CARE

•Students are not allowed to use personal devices at school. All students must use a school issued device during the school to complete assignments. Visit the media center to check out a laptop if

you do not have a school issued device.

***Remember to bring your charged laptop to school daily and keep up with your charger!**

*Always keep your laptop closed when you need to walk with your laptop and it's not in the carrying case.

•Never carry your laptop while open or lift the laptop by the screen/monitor! Handling your laptop in this manner can damage your screen.

•Do not place paper/objects between your keyboard and monitor, it will crack your screen!

•Keep drinks and liquids away from your computer. A spill can damage the hard drive and the motherboard. These type of damages may cost the same price as a new laptop to replace, Please be careful!
